UPCOMING EVENTS

National Testing Day

October 16, 2004

Local groups across the country administer the Mensa Admission Test. The American Mensa Web site, us.mensa.org, will list nationwide test sites.

Colloquium

Earth in Mind: Fueling the Future

March 4, 2005 – March 6, 2004

Tucson, AZ

Periodically, a forum is provided for members to devote a discussion or debate to a provocative study topic. Past Colloquiums have focused on topics such as consciousness, medicine, and gifted children. This Colloquium will focus on the problems and solutions of renewable energy. Topics of conversation will range from the ecological, economic, and social necessity of "tapping into" renewable energy sources; to specific advances in conservation and renewable energy technologies; to the cultural patterns maintaining the current system.

Mensa Mind Games®

April 15, 2005 – April 17, 2005

Tampa, FL

This national games competition is held each spring. Mensans select the top five games for that year based on originality, game play, play value, aesthetics, and clarity of instructions. Winning games carry the Mensa Select® seal. Past winners have included Taboo™, Apples to Apples™, and Scattergories™. More information about Mind Games may be found at mindgames.us.mensa.org.

Annual Gathering 2005

July 6, 2005 – July 10, 2005

New Orleans, LA

Each year, a different local group hosts about 1,500 Mensans from across the country and around the world as they gather over a long weekend to meet with friends, share knowledge, and have fun. A typical Annual Gathering offers about 200 programs on topics from ballroom dancing to physics.

World Gathering

Summer 2006

Orlando, FL

Once every 10 years, Mensans from more than 100 countries meet for discussion, programs, and games. This is the first time the World Gathering will be held in the United States. The event will commemorate Mensa's 60th anniversary.

Regional Gatherings

Throughout the year, local chapters host more than 40 regional gatherings. Regional gatherings are usually theme-oriented, with programs and events based on themes like outer space, Hollywood, or the Wild West. Visit us.mensa.org for a list of upcoming gatherings.

CultureQuest®

Timed to begin at the same moment across the nation, local groups compete against each other for scholarship money in a two-hour test of cultural knowledge.
